**Grant Siren**

**Stay focused on the good you do.  
We'll get you the funds to do it.**

Your organization is doing wonderful work in the community. To sustain or grow your services, you need a strategic plan and the funds to achieve it. That's where the grant experts with Resource Associates come in. We support all phases of capacity building, including:

- Grant Research
- Grant Writing
- Partner Coordination
- Grant Evaluation
- Technical Assistance
- Grant Training
- Strategic Planning

Resource Associates is truly the grant expert. Over the past 18 years, we have won hundreds of millions of dollars for nonprofits, schools, businesses, tribes, and governmental agencies. Only the top grant writers, fundraisers, and capacity building professionals work with us so you can be assured of the thoughtful, knowledgeable, and quality service you'll receive from Resource Associates.

**Enhance your team and your organization's ability to fulfill its mission by letting us serve you.**

TRUSTED  
**Experienced**

# Want to grow your community initiatives? Put Resource Associates to work for you!

## Grant Research

Let us do the work of identifying the grant and funding opportunities that your organization is most qualified to win. Your custom report will include up to 50 competitions along with descriptions, deadlines, and analysis of your chances of winning the funding.

## Grant Writing

Our grant writers have been awarded the majority of government and foundation grants available. We can dramatically improve your chances of winning a grant because of our vast experience. Grant writing is complex and takes skill. We'll take care of all the details, from the planning of the grant program design and development of the full narrative and budget to the submission of the proposal. Many grants can be written at low or no cost so why not let grant writing professionals do the work for you?

## Partner Coordination

Establishing grant partners and detailed documentation of partnerships (i.e., letters of support, MOU's, etc.) can be major stumbling blocks for organizations seeking grant funding. Let our experienced partnership coordination team do the time-consuming work of identifying and soliciting quality partners and securing documentation from new and existing partners.

## Grant Evaluation

The work has just begun once you win a grant. Our experienced, doctorate-level evaluators will take care of your grant progress reports, research design, tool development, and summative evaluation reporting. We'll deal with the paperwork while you focus on your grant program.

## Technical Assistance

Even if you or someone on your team is writing a grant proposal, Resource Associates can be of assistance by conducting a technical review. We'll make sure all the i's are dotted and t's are crossed while positioning your organization for the best competitive advantage.

## Grant Training

Our experienced staff can help your team develop their skills and knowledge with personalized coaching and custom workshops. From refining your own internal grant writing skills to improving your grant management systems. We'll work with you closely to develop a curriculum that is specific to your organization's needs, talents, and goals.

## Strategic Planning

Whether you're a brand new organization that needs to define its vision, mission, and initiatives or an organization in transition, we can help you develop a strategic plan that is aligned to funding opportunities that will help you achieve your short and long term goals. Sustainability planning is also a major concentration of the work we do with soft money supplemented agencies.
